SUBJECT : DD/S&T Participation in Director's  
Country Briefings

1. This Directorate has been invited to participate in the briefings provided the DCI each morning and Dr. Wheelon has concurred. These briefings take up the first 10-12 minutes of each DCI Morning Meeting. They were originally created as a means for informing the Executive Committee on the environmental, military and political facts of life in countries which are potential problem areas.

2. DD/S&T will share the briefing schedule with DD/I and DD/P. Our role will be to provide factual summaries of DD/S&T programs, projects and activities, primarily in the collection and finished intelligence aspects of our work.

3. We require by COB 13 December a listing by title and proposed briefer of those subjects/activities which you feel would be appropriate for future presentation at the DCI's Morning Meeting. Please submit the list to the undersigned.

4. In the selection of briefers a precedence has been established by the DD/I in the use of knowledgeable, attractive desk-level officers. This procedure has been successful both in providing a rare opportunity to expose more capable junior personnel to the Executive Committee and in serving as a very real moralebooster for the components. You may well wish to consider this in the selection of your proposed briefing personnel.
